SABRE™ 1550 & 1551 SCANNER

Rough and tough aren't usually equated with comfortable and lightweight. Unless you're talking about the Sabre 1550 and 1551, that is. This hand held laser scanner is built to perform under the harshest of conditions—yet it's ergonomically correct.

First, durability: It's the best in the market. Boasting plenty of rubber and a protected window, this rugged scanner can withstand repeated drops of up to 183 cm (6 feet), wind and rain, off road vehicle vibration levels and below-freezing temperatures.

As far as design, operators will find the well-balanced scanner easy to use in either hand; large triggers and integrated sites make aiming a snap.

Performance is just as impressive. Standard range versions can read 5 mil high density code or 100 mil retroreflective code.

Setting up the 1551E scanner is a snap with EasySet™ a software utility for quick and easy configuration of Intermec scanners. No need to page through manuals to turn on application features, with point and click you can print a barcode that configures your scanner with a single scan. Every 1551E comes with EasySet configuration software free of charge.

Last but not least, this scanner is moderately priced and it comes with a three-year guarantee. Need we say more?
